Thank you for your interest in joining our school.

This is a unique and exciting opportunity for an inspirational PE & Science teacher to join Broadwater School and further contribute to the life chances of young people in the school and across the Trust.

In recent years Broadwater's popularity has grown in the local community and we are oversubscribed in every year group. The success of Broadwater has been fully supported by the local community and we appreciate the positive relationships we have with our families and other stakeholders.

Our standards are exceptionally high, classrooms are disruption free, pupils are hardworking, polite, and genuinely want to make a difference for themselves and those around them. There can be no doubt that working in a school where Teachers teach, and students behave allows for a stress-free working environment and promotes positive well-being for all within our community. Please don't just take our words for this, it's essential to come and see the reality.

Our latest Progress 8 score was 0.34 and we know that the school will continue to improve on this year on year.

Ofsted described the school as an 'exciting place to be' and visitors often remark on how Broadwater looks and feels like a 'happy' school. Our school principles of 'Work Hard; Be Kind; Make a Difference' are central to all that we do.

Our school is committed to ensuring everyone is treated with respect, challenged to have high expectations and ambitious to reach their potential regardless of their starting point. This applies to staff and students alike.

Our Personal Development programme was judged as 'outstanding' by Ofsted in 2019 and we are particularly proud of our extracurricular provision which can be found on our website. Every teacher is involved in ensuring this provision is 'beyond outstanding'.

Broadwater converted to an Academy and joined the Greenshaw Learning Trust in September 2020. This has been an exciting period and has given both students and staff a wealth of opportunities.

The Greenshaw Learning Trust website <https://www.greenshawlearningtrust.co.uk> provides a clear picture of our aspirations and our vision for schools within the Trust; however, please do not hesitate to contact us to seek further information.

Please do also look at our school website <https://www.broadwater.surrey.sch.uk/> which gives a flavour of the school. Everyone who comes to look around comments about the positive ethos and exciting atmosphere. We welcome visitors at any time of the day, so if you would like visit and get a feel for the school prior to submitting your application, you would be very welcome. Please email my PA Sonya Turpin s.turpin@broadwater.surrey.sch.uk to schedule a visit.

We are proud members of the Greenshaw Learning Trust, a 'family' of like-minded schools, that collaborate to provide mutual support, share their good practice and learn from each other, whilst retaining and developing our own distinctive character.

The Trust is a vibrant and forward-thinking community of teachers, support staff and learners committed to educating the 'whole child' to improve life chances, whilst securing the best possible outcomes for students. We encourage all young people to work hard and make the most of the opportunities they are given. Our amazing team of teachers and support staff themselves demonstrate and encourage a lifelong love of learning, both within and beyond our curriculum.

The Greenshaw Learning Trust is a successful multi academy trust and currently comprises twenty-four schools: seven in South London, five in Berkshire, one in Surrey, eight in Gloucestershire and South Gloucestershire, and three in Plymouth. We are continuing to grow and have further schools joining us soon including a secondary school in Plymouth.

We are ambitious about diversity and inclusion and very much look forward to receiving applications from candidates whose personal qualities and values reflect those in the person specification and whose experiences also place them in a strong position to deliver the challenges set out in the job description. We encourage applications from candidates regardless of age, disability, gender identity, sexual orientation, pregnancy, marital status, religion, belief, or race.

The school websites provide a clear picture of our aspirations and our vision; however, please do not hesitate to contact us to seek further information Karen Carling k.carling3@broadwater.surrey.sch.uk. We very much look forward to receiving applications from candidates whose personal qualities, values and experiences support and reflect ours.

If you would like to work in an incredibly supportive school with a highly visible SLT, disruption free learning and the best CPD opportunities then we would love to receive your application.

Lizzi Matthews
Headteacher

Greenshaw Learning Trust – ‘Always Learning’

The GLT is a successful multi academy trust that provides high quality comprehensive, non-selective and inclusive education. The Trust is committed to meeting the needs of every student and our schools offer a broad curriculum and wide range of special needs provision in a welcoming and challenging environment.

We are extremely proud of our success, but we are not complacent. We believe that we can – as an academy trust, as schools and as individuals – always improve. We are all ‘Always Learning’.

Each school in the GLT is led by its own leadership team and a governing body, which have the support of the wider Trust to help them achieve their objectives for their school. Being part of the Trust provides our schools with an effective structure, collaboration, and support. Our culture of trust and openness fosters mutual support and continual improvement.

School-to-school collaboration is enabled by regular contact between school leaders. Our shared services professionals provide a wide range of effective, rapid and flexible support, advice and guidance to our schools, including curriculum support, school improvement, staff training and development, admissions, attendance, behaviour, safeguarding and SEND, pupil services, estates, finance, HR, IT, catering, clerking, procurement and governance.

From its establishment as a multi academy trust in 2014, the Trust has grown significantly and currently employs around 2,600 people and educates over 17,300 students. We have approval to open a new secondary special school in South London and we are planning to grow further over the coming months and years. Further information about our schools can be found [here](#).

The Greenshaw Learning Trust Mission Statement

We are ambitious for our schools and their students. We believe that there is no ceiling on what can be achieved by anyone, regardless of their circumstances or background.

We are committed to providing a supportive and inclusive learning environment, giving every young person the opportunity to fulfil their potential now, and in the future.

We seek to realise the power of individuals and organisations working together in collaboration whilst retaining their individuality, and we recognise that we can always improve.

Greenshaw Learning Trust Employee Benefits

The GLT recognises that our employees are our most important asset, and we are aware that the quality and commitment of our employees is critical to our success. We offer all our employees the following staff benefits:

- A supportive ethos and concern for the well-being of all colleagues
- Excellent CPD opportunities and career progression
- Employer Contributions to Local Government or Teachers Pension Scheme
- Cycle to work scheme
- Gym membership scheme
- Employee Assistance Programme
- Eye Care Voucher scheme
- Childcare Voucher Scheme
- Car Benefit Scheme
- My Health discounts

.

PE

Here at Broadwater we aim to develop pupils Physical Literacy through a variety of activities. We utilise all our space which include two full size astroturf hockey pitches, expansive field space which is home of an athletics track, football pitches and cricket pitch, sports hall with full indoor cricket nets, dance studio, netball courts and fully equipped strength and conditioning suite. We ensure pupils have an experience which allows them to the opportunity to develop all aspects of their Physical Literacy to improve their ability to take responsibility for their own health, fitness and wellbeing.

We are keen to promote aspects of PE which can be utilised across the school and the pupil's life. Such as embedding knowledge of sports psychology which develop pupil's mindset and ability to control their emotions and improve their self-motivation. Here at Broadwater, we want to improve the confidence of students in the physical domain, allowing them the opportunity to explore, understand and have the knowledge to navigate the physical environment.

Our extracurricular provision gives our pupils to explore activities in more depth and make that step towards joining a club. We compete within the district in most sports and also within regional and national competitions. We use our strength and conditioning centre to improve students' performance, improve their fitness and general health. We prioritise consistency to ensure they can have the best opportunity to develop fundamental skills within a sporting context. We use our links with a variety of sports clubs and groups to access facilities, coaching for our pupils and our own CPD.

In the Classroom:

Through academic PE courses such as the Cambridge National Sports Science and AQA GCSE we further enrich students' knowledge and experience of PE. These courses are continually growing and this is due to the positive experiences we enable our students to have throughout their PE at Broadwater. Our teaching and learning is developed through self, school and trust CPD. We utilise our partner schools to ensure we are delivering the best version of PE for our students. We take ownership of our own professional development through reading texts and engaging with the wider PE community.

We are continually reflecting upon our curriculum and looking to improve based on research, findings and practicing what we have set out to do. We use PE Scholar, We Are in Beta and our own Greenshaw Learning Trust network to find the best strategies to deliver the best PE we can to our students.

Science

In addition to an excellent supply for scientific equipment, all our labs are fully equipped with resources to support teaching and learning. For example, each lab has a visualiser which the science team use during the input part of lessons and further to provide instant student feedback. There are also mini whiteboards for each student, enabling teachers to assess learning with ease.

Alongside centralised booklets, we use Tassomai to set homework. The retrieval practice these resources provide, supports students' progress by interrupting the forgetting curve.

The team uses subject specific pedagogy to continually develop our shared lesson and resource bank.

Curriculum:

We follow the AQA course, with Trilogy and Triple Award classes.

The Science curriculum at Broadwater has two primary aims. First, to develop students' knowledge and skills to enable them to make sense of the world around them. This will allow students to be inquisitive and understand the uses and implications of science, today and for the future. Secondly, to develop students' ability to think critically e.g., to evaluate data and to question sources of information.

The achievement of both these aims requires students to be equipped with a core body of scientific knowledge. The Big Ideas in science encompass notions of cells, genetics, evolution, space, energy and forces which lay the foundations to the science disciplines of biology, chemistry and physics. Consequently, they are core components of our KS3 curriculum, setting the scene for more specialised study at KS4 and KS5.

Our KS4 programme builds on the knowledge and skills enquired in KS3, challenging students to think deeper and also draw connections between topics and across disciplines. Students are expected to apply their knowledge of scientific ideas, techniques and procedures. They further analyse information and ideas to: interpret and evaluate; make judgements and draw conclusions; develop and improve experimental procedures. Students also develop understanding of how our ideas of science have changed over the course of history and will continue to do so as technology advances and further evidence is uncovered.

The acquisition of experimental techniques is also a core component to the science curriculum. Students carry out increasing numbers of practical investigations on their learning journey, as they become armed with the concepts and methods required to make sense of what they observe. Guidance is reduced slowly, from teacher demonstrations to guided practical work. Our aim is to prepare students who wish to study science in more depth to plan and carry out their own investigations should they wish to pursue their own research one day. Further, we believe all students must appreciate the importance of scientific methodology, how to interpret results of experiments and draw evidenced conclusions.

The Science Department has the highest expectations of – and for – our students, which means we are committed to supporting all students in achieving personal, social and academic success. We are committed to instilling a love of learning about the world around us and all its exciting phenomena. The knowledge and skills that students develop through their learning of science can lead to a plethora of different career pathways. We aim to educate students about as many different career options as possible over the course of their learning at Broadwater. Opportunities for learning in science further stretch beyond the lessons and homework tasks, through provision of science club, CREST projects and national competitions.

Job Description

Key Accountabilities:	Key Tasks:
<p>Teaching and Learning</p> <p>To secure and sustain effective teaching of the relevant subject for individuals, groups and classes. Develop the quality of teaching, assess the standards of students' achievements and set targets for improvement.</p>	<ul style="list-style-type: none"> • Use school policy and National Curriculum requirements to set clear targets for improvement of students' achievement and monitor students' progress towards those targets. • Use appropriate teaching and learning strategies to communicate clear learning objectives and expectations including, where appropriate, in relation to literacy, numeracy and other school targets. • Recognise the level that a student is achieving and make accurate assessments independently, against attainment targets, where applicable, and performance levels associated with other tests or qualifications relevant to the subject taught. • Plan effectively to ensure that students have the opportunity to meet their potential, notwithstanding differences of race and gender and taking account of the needs of students who are underachieving, very able, not yet fluent in English, making use of relevant information and specialist help where available. • Plan effectively, where applicable, to meet the needs of students who are Pupil Premium or those with Special Educational Needs and, in
